Introduction

This document brings together census information for the ancestors of Lance and Wendy Thorpe for the years 1841 to 1930. These limits were selected because 1841 was the first year that all family members were enumerated and therefore, was the first year that a family could accurately be identified. And 1930 was the last year that information was available at the time of compilation. Some individuals seem to have defied enumeration. Perhaps the census taker missed them or perhaps their names were spelled an unusual, unlocatable way. Whatever, the list is as complete as I can make it and will be added to as new information becomes available. Index entries only list direct ancestors. Some census information for brothers and sisters of ancestors has been collected but has not been indexed.

The Adobe Acrobat versions of this document support hyperlinks of Contents and Index entries. Click on a contents entry or a name in the index and the document will jump to the correct page. Index links will not work on cross-references that say, "*See* such-and-such".
